

## **Emptor closes Seed financing round**

*Leading automated identity and security services provider in Latin America*

**May XX, 2019** – Emptor, a leading platform for the automation of trust-based knowledge processes in Latin America, is proud to announce its Seed financing round. DILA Capital, a Mexico City based Venture Capital fund, led the investment round with participation from Angel Ventures Peru. This new funding will be used to hire developers to expand their product offering and develop new technology.

“Emptor’s ability to bring high-quality products to market and provide real value for their clients has been nothing short of amazing. DILA is excited to support the Emptor team amidst their impressive growth throughout Latin America,” said Alejandro Diez Barroso, Managing Partner, DILA Capital.

After launching in early 2016, Emptor has developed a robust suite of automated services for on-demand companies. The Company, through its proprietary database, has created fast and intelligent solutions to ensure that clients have the most accurate and up-to-date information on entities on their platforms, such as individuals and vehicles. With the rise of ridesharing, marketplaces and e-commerce, Emptor’s solution will play an integral role in the growing digital economy.
